CHRISTIAN CHURCH

Rev. Ames of Glendale who was in Chandler a few weeks ago and preached in the Christian church, gave a fine address both Sunday morning and evening in the school house.

Honduras is a rich country and its resources remain almost a virgin condition. It possesses a climate that varies with its topography, the temperature on the coasts being hot, in the lowlands of the interior it is warm, and in the mountains it is temperate and in some places cold. Its mountains abound in minerals, and its tablelands and valleys are especially adapted for raising cattle and agriculture.

Business Good in Mine Camps

Representative J. C. Goodwin, Home from Two Weeks' Trip, Says Business Best in History in Southeastern Arizona

Financial and business conditions are better today in the mining camps in the eastern and southern part of the state, Miami, Globe, Douglas, Bisbee and camps in the districts than any time in history, according to James C. Goodwin, Maricopa county representative to the recent legislature, who returned to his home in Tempe night before last from a two weeks' trip. Goodwin is superintendent of the mineral department at the Arizona state fair and it was in the interests of this attraction at the big fair that he has been visiting the camps and lining up the best possible mineral exhibit from each mine.

Goodwin states that banking houses in practically every camp that he visited are enjoying better business since the first of the year. Good wages are being paid by the mining companies, larger forces of men are being worked, and men are saving their money with the result that deposits in the banks are increasing.

Accounts are being settled quicker and more regularly and bigger sales are being registered almost daily. Goodwin visited the Globe and Miami districts and practically all of the camps in Southern Arizona and he found that these same gratifying conditions exist. Saturday he spent at Tucson at the mineral department of the university and he returned to Tempe that night.

After a week spent here and at the fair grounds arranging for the exhibits, Goodwin will leave for the north and will spend a couple of weeks in that section gathering specimens for display and otherwise arranging for the best mineral display ever, at the 1915 fair in November.
